NOTES TO FINANCIAL STATEMENTS

1. Agency Background

Pursuant to Presidential Decree (PD) No. 198 as amended by PD Nos. 968 and 1479, the Trece Martires City Council passed Resolution No. 97-045 on March 26, 1997 creating Trece Martires City Water District (TMCWD) and forming its Board of Directors as a policy maker in order to provide safe, sufficient and potable water supply for Trece Martires City residents.

As of December 31, 2019, TMCWD has 29,651 total service connections, 24,558 of which are active concessionaires covering 12 barangays of Trece Martires City, Cavite and serving 147,348 populations and ten big subdivisions namely: Tradition Homes, Regina Ville Classic, Asiatic Homes, Ciudad Adelina, Summerfield, Regina Ville 2000, Sampaguita Village, Southville Subdivision, Golden Horizon and Ciudad Adelina II (AFP-PNP).

The TMCWD comprises of 13 regular employees and 4 job order personnel headed by its General Manager, Ms. Juliet R. Ocampo and governed by five members of the Board of Directors, namely:

Name	Position	Sector
Ms. Lolita Aure	Chairperson	Education
Ms. Leticia Villanueva	Vice-Chairperson	Professional
Ms. Ruth Villar	Secretary	Women
Ms. Thelma Nuestro	Member	Civic
Ms. Fruit Baisa	Member	Business

2. Summary of Significant Accounting Policies

- a) The TMCWD follows the generally accepted accounting principles and reporting practices applicable. It uses the Chart of Accounts, in compliance with the Manual on the New Government Accounting System (MNGAS).
- b) Accounts Receivable is valued at its face amount less Allowance for Doubtful Accounts. Provision for doubtful accounts on accounts receivable is maintained at a level considered adequate to provide for potential losses on receivables. The level of this provision or allowance is based on Management's evaluation of collection experience and other factors that may affect collectability.
- c) The cost of ending inventory of office supplies and materials and other inventory items are computed using the First In, First Out method.
- d) Property, Plant and Equipment are carried at costs less accumulated depreciation. For assets under construction, the Construction Period Theory was applied for costing purposes. Related expenses incurred during the construction of the project were capitalized and those after the construction formed part of the operating cost.
- e) The Straight Line Method of depreciation is used in depreciating the Property, Plant and Equipment with estimated useful lives ranging from one to 30 years. A residual

value computed at ten percent of the cost of asset is set, and depreciation starts on the following month after the purchase.

- f) Long Term Loan is stated at the outstanding balance of principal.
- g) Modified accrual basis of accounting is used. All income and expenses are recognized when earned/incurred and reported in the financial statements in the period to which they relate, except for transactions where accrual basis is impractical or when other methods are required by law.
